

Secondary Connector Kits

Compliances: FAA AC 150/5345-26B (L-823)

ICAO Annex 14

SCK

Applications

Secondary plug kit for two single conductor cables

Designed to meet FAA specification L-823, style 4, each kit forms a plug for two single conductor cables for connection to a secondary receptacle kit or to an isolation transformer. Both cables must be the same size.

Secondary receptacle kit for two single conductor cables

Designed to meet FAA specification L-823, style 11, each kit forms a receptacle for two single conductor cables for connection to a secondary plug kit. Both cables must be the same size.

Secondary plug kit for two-pole conductor cables

Designed to meet FAA specification L-823, style 5, each kit forms a plug for a two-pole conductor cable for connection to a secondary receptacle kit or to an isolation transformer.

Secondary plug kit for two-pole conductor cables

Designed to meet FAA specification L-823, style 12, each kit forms a receptacle for a two-pole conductor cable for connection to a secondary plug kit.

How to Order
